Delta Institute of Technology - Academic Handbook 2026/2027

This handbook explains the academic regulations for undergraduate students of the Faculty of Computer Science and Artificial Intelligence. If there is a conflict, the decision of the Faculty Council prevails.

1. Grading System

Final course grades are calculated out of 100. Coursework counts for 40 percent of the course grade (midterm exam 20 percent, quizzes and assignments 20 percent) and the final examination counts for 60 percent.

Grade A: 90 to 100 percent, 4.0 grade points. Grade B: 80 to 89 percent, 3.0 grade points. Grade C: 70 to 79 percent, 2.0 grade points. Grade D: 60 to 69 percent, 1.0 grade point. Grade F: below 60 percent, 0.0 grade points, and the course must be repeated.

The Grade Point Average (GPA) is the sum of grade points multiplied by credit hours, divided by the total credit hours attempted in the semester. The Cumulative GPA (CGPA) covers all semesters.

A student may repeat any course in which he or she earned grade D or F. The new grade replaces the old one in the CGPA, but a repeated course can earn a maximum grade of B.

2. Course Registration

The normal study load is between 12 and 18 credit hours per semester. Students with a semester GPA of 3.0 or higher in the previous semester may register up to 21 credit hours. Students on academic probation may register at most 12 credit hours. In the summer semester the maximum load is 9 credit hours.

Students may add or drop courses during the first two weeks of the semester without any record. Late registration after this period requires approval from the academic advisor and a late registration fine of 300 EGP.

A student may withdraw from a course until the end of week 10 and receive the grade W (Withdrawn), which does not affect the GPA. Withdrawal after week 10 results in grade F.

A student cannot register for a course before passing its prerequisites, as listed in the course catalog.

3. Attendance and Examinations

Attendance is compulsory. A student who is absent from more than 25 percent of the sessions of a course without an accepted excuse is Deprived (grade DN) from that course and is not allowed to sit the final examination.

Medical excuses must be submitted to the Student Affairs office within 5 working days of the absence, together with an official medical report.

Midterm exams are held in week 8. Final examinations are held in weeks 15 and 16 of each semester.

A student who misses an exam with an accepted excuse may sit a makeup exam after paying the makeup exam fee of 200 EGP per course.

Any form of cheating results in grade F in the course and referral to the disciplinary committee.

4. Grade Appeals

A student may submit a grade appeal to the Student Affairs office within 7 days of the publication of results. The appeal committee announces its decision within 14 days. No fee is charged for appeals.

5. Academic Standing

A student whose CGPA falls below 2.0 at the end of a semester is placed on academic probation. A student who remains on probation for 3 consecutive semesters is dismissed from the program.

The Dean's List includes students with a semester GPA of 3.6 or higher who registered for at least 15 credit hours and have no grade below C.

6. Graduation Requirements

To graduate, a student must complete 132 credit hours, achieve a CGPA of at least 2.0, pass the Graduation Project (CS490 and CS495) and complete the mandatory summer internship of 160 training hours.

Graduation Project I can be registered only after completing 100 credit hours. The maximum duration of study is 7 years from the date of enrollment. Graduates with a CGPA of 3.5 or higher receive First Class Honors.
